

## Twist Bioscience Announces Participation in SRC Panel at the 2022 MRS Spring Meeting and Exhibit

May 10, 2022

SOUTH SAN FRANCISCO, Calif.--(BUSINESS WIRE)--May 10, 2022-- [Twist Bioscience Corporation](#) (NASDAQ: TWST), a company enabling customers to succeed through its offering of high-quality synthetic DNA using its silicon platform, today announced that Steffen Hellmold, senior vice president, business development for data storage, will participate in the 2022 Materials Research Society (MRS) Spring Meeting and Exhibit taking place in Honolulu, Hawai'i May 8-13 and virtually May 23-25. Mr. Hellmold will participate as a panelist in the [2030 Decadal Plan for Semiconductors Panel Discussion](#) on May 12 from 1:30-5:00 PM Hawaii-Aleutian Standard Time at the Hawai'i Convention Center, Level 3, Room 324.

The panel will bring together experts in industry and academia to discuss the five seismic shifts outlined in the Semiconductor Research Corporation's (SRC) [2030 Decadal Plan for Semiconductors](#) and their predicted impact on the future of semiconductors and information and communication technologies. One of the seismic shifts outlined in the plan is that the growing demand for silicon-based memory and storage will outstrip global silicon supply and create opportunities for radically new storage solutions. The semiconductor industry is looking to DNA data storage as one of these emerging solutions that could revolutionize mass storage.

### About Twist Bioscience Corporation

Twist Bioscience is a leading and rapidly growing synthetic biology and genomics company that has developed a disruptive DNA synthesis platform to industrialize the engineering of biology. The core of the platform is a proprietary technology that pioneers a new method of manufacturing synthetic DNA by "writing" DNA on a silicon chip. Twist is leveraging its unique technology to manufacture a broad range of synthetic DNA-based products, including synthetic genes, tools for next-generation sequencing (NGS) preparation, and antibody libraries for drug discovery and development. Twist is also pursuing longer-term opportunities in digital data storage in DNA and biologics drug discovery. Twist makes products for use across many industries including healthcare, industrial chemicals, agriculture and academic research.
