

Twist Bioscience to Present at the UBS MedTech, Tools and Genomics Summit 2023

August 7, 2023

SOUTH SAN FRANCISCO, Calif.--(BUSINESS WIRE)--Aug. 7, 2023-- Twist Bioscience Corporation (NASDAQ: TWST), a company enabling customers to succeed through its offering of high-quality synthetic DNA using its silicon platform, today announced that Patrick Finn, Ph.D., president and COO of Twist Bioscience, will participate in the Innovation Across Drug Discovery, Molecule Synthesis, & Precision Medicine panel at the UBS MedTech, Tools and Genomics Summit 2023 on Tuesday, August 15 at 2:00 p.m. Pacific Time.

The panel will be webcast live and can be accessed by visiting the "Investor Calendar" page of the investor relations section of the company's website [here](#). A replay of the presentation will be archived for a period of 30 days following the conclusion of the live events.

About Twist Bioscience Corporation

Twist Bioscience is a leading and rapidly growing synthetic biology and genomics company that has developed a disruptive DNA synthesis platform to industrialize the engineering of biology. The core of the platform is a proprietary technology that pioneers a new method of manufacturing synthetic DNA by "writing" DNA on a silicon chip. Twist is leveraging its unique technology to manufacture a broad range of synthetic DNA-based products, including synthetic genes, tools for next-generation sequencing (NGS) preparation, and antibody libraries for drug discovery and development. Twist is also pursuing longer-term opportunities in digital data storage in DNA and biologics drug discovery. Twist makes products for use across many industries including healthcare, industrial chemicals, agriculture and academic research.
