

## Twist Bioscience to Present at the Cowen and Company 36th Annual Health Care Conference

March 4, 2016

SAN FRANCISCO, Calif. – March 3, 2016 — Twist Bioscience, a company accelerating science and innovation through rapid, high-quality DNA synthesis, today announced that Emily Leproust, Ph.D., chief executive officer of Twist Bioscience, will present at the Cowen and Company 36th Annual Health Care Conference on Wednesday, March 9th at 11:30 a.m. Eastern Time at The Boston Marriott Copley Place in Boston, MA.

### About Twist Bioscience

At Twist Bioscience, our expertise is accelerating science and innovation by leveraging the power of scale. We have developed a proprietary semiconductor-based synthetic DNA manufacturing process featuring a 10,000-well silicon platform capable of producing synthetic biology tools, including genes, oligonucleotide pools and variant libraries. By synthesizing DNA on silicon instead of on traditional 96-well plastic plates, our platform overcomes the current inefficiencies of synthetic DNA production, and enables cost-effective, rapid, high-quality and high throughput synthetic gene production, which in turn, expedites the design, build, test cycle to enable personalized medicines, pharmaceuticals, sustainable chemical production, improved agriculture production, diagnostics, biodetection and data storage.
