

Twist Bioscience Announces Completion of \$50 Million Registered Direct Offering Priced At-The-Market

January 27, 2020

SAN FRANCISCO--(BUSINESS WIRE)--Jan. 27, 2020-- Twist Bioscience Corporation (NASDAQ: TWST), a company enabling customers to succeed through its offering of high-quality synthetic DNA using its silicon platform, today announced that it has issued approximately 2.24 million shares of its common stock at an average price of approximately \$22.32 per share, raising approximately \$49.98 million in gross proceeds.

On December 18, 2019, Twist filed a prospectus supplement with the Securities and Exchange Commission for the sale of up to \$50.0 million in shares of its common stock through an at-the-market offering with Cowen and Company, LLC as its agent. The prospectus supplement relates to Twist's registration statement on Form S-3, which was declared effective by the Securities and Exchange Commission on December 13, 2019. Twist intends to use the proceeds from the at-the-market offering for working capital purposes and to fund its growth.

About Twist Bioscience Corporation

Twist Bioscience is a leading and rapidly growing synthetic biology company that has developed a disruptive DNA synthesis platform to industrialize the engineering of biology. The core of the platform is a proprietary technology that pioneers a new method of manufacturing synthetic DNA by "writing" DNA on a silicon chip. Twist is leveraging its unique technology to manufacture a broad range of synthetic DNA-based products, including synthetic genes, tools for next-generation sequencing (NGS) preparation, and antibody libraries for drug discovery and development. Twist is also pursuing longer-term opportunities in digital data storage in DNA and biologics drug discovery. Twist makes products for use across many industries including healthcare, industrial chemicals, agriculture and academic research.
